## WHY CHOOSE STARON®?

STARON® SOLID SURFACES  
ARE 100% WATERPROOF,  
HYGIENIC AND DURABLE.  
NOT ONLY THAT, THEY HAVE  
INVISIBLE JOINTS WHICH CREATE  
A UNIQUELY SEAMLESS DESIGN.

TEMPEST POLAR FP 111

**staron®**  
Solid Surfaces

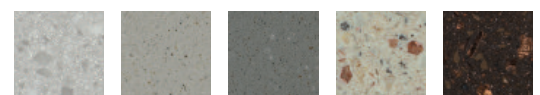

## WHAT IS STARON®?

Staron is a sophisticated blend of natural minerals and thermosetting acrylic polymers which has been safely developed for use in the home.

Staron is a solid surface. This means the surface colour runs right the way through the thickness of the material, so that cut outs, drainer grooves and edge profiles can be formed seamlessly.

Separate sections of Staron can be brought together with inconspicuous joints, which also remain 100% waterproof. Perfect for the laundry and bathroom.

Staron has won many awards for being an easily cleaned and hygienically safe surface on which to prepare food. Perfect for the kitchen.

STARON® CAN BE  
EASILY RESTORED  
TO LOOK AS  
GOOD AS NEW,  
WHATEVER THE  
KIDS THROW AT IT!

SUPREME DAWN VD 126

## EASY TO MAINTAIN AND DURABLE

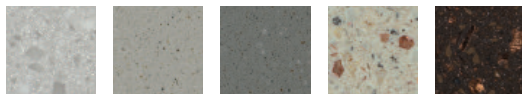

Maintaining Staron solid surfaces could not be easier. Whether in the kitchen or bathroom, the stain resistant durability of Staron means that a damp cloth and mild detergent is all that is needed to deal with everyday spills and to keep your surfaces looking great. Because Staron is 100% waterproof, harmful germs cannot be absorbed into the surface. And because it has smooth invisible seams, there are no joint gaps for dangerous bacteria to develop.

Staron surfaces are tough, but in the unlikely event your surfaces become damaged, Staron offers the peace of mind that it can be easily restored to look as good as the day it was first installed.

Contact your Staron specialist or see our care guide for more information on how to look after your solid surfaces.

staron®  
Solid Surfaces

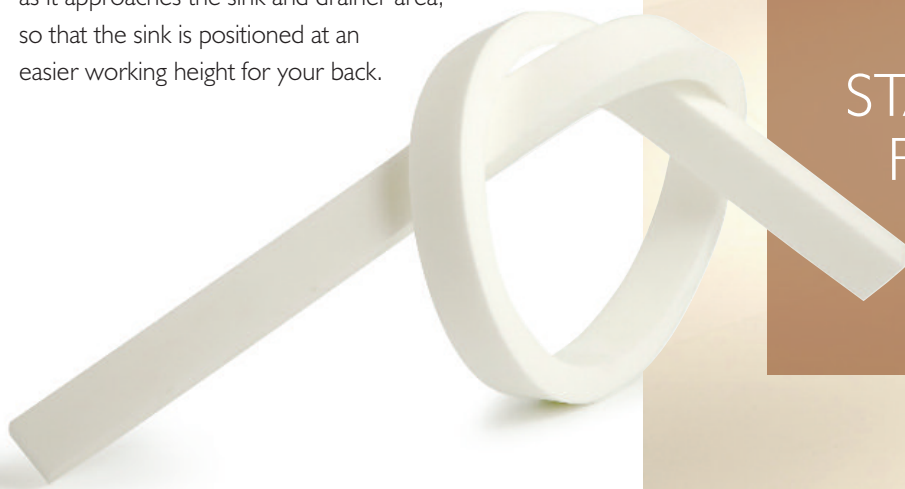

## BE INSPIRED

Hobs and sinks can be easily incorporated into the Staron surface design, wherever you want them.

This remarkable image shows how Staron can be thermoformed into stylish gentle curves or more acute radii, without losing any of its strength and durability. Consider having a worksurface that curves downwards at the end of a cabinet to form a seamless gable end.

Or how about a worksurface that curves upwards as it approaches the sink and drainer area, so that the sink is positioned at an easier working height for your back.

STARON'S DESIGN  
FLEXIBILITY WILL  
FIRE YOUR  
CREATIVITY

## NOT JUST SKIN DEEP!

Staron's composition means that all décors are solid throughout the material and not just skin deep! This opens the way for exciting profiles, motifs and drainer grooves to be incorporated into the surface. The unique bonding system does away with unsightly joints and elegantly creates the impression of a surface carved from a single block of stone. The result is a one-piece look for your kitchen or bathroom.

STARON'S CHIC  
EFFECTS MAKE  
YOUR INTERIORS  
UNIQUELY STYLISH

SUPREME DAWN VD 126

## SEAMLESS INTEGRATION

Simple and classy, Staron sinks and bowls integrate elegantly with your kitchen or bathroom surfaces. Invisible seams create a perfect fit, without the rims or crevices of other surfaces that can promote the growth of bacteria. The naturally flowing appearance is not only beautiful, but also hygienic, completely waterproof and easy to clean. Cast or thermoformed, the sinks and bowls are non-porous and germ-resistant. Put simply, they are a visually striking and fully functional addition to your home. And you can add drainer grooves that have for example a chevron design or a parallel design.

STARON® IS  
A BEAUTIFUL  
AND PRACTICAL  
SOLUTION FOR  
YOUR HOME

A photograph of a modern kitchen countertop. On the left, a stainless steel gas cooktop with black grates is installed. To the right, a clear glass vase holds several red and yellow roses. The countertop is a light-colored, solid surface. Below the counter, dark wood cabinets with silver handles are visible. A semi-transparent pink rectangle is overlaid on the upper left portion of the image, containing white text.

STARON® IS AN  
ENVIRONMENTALLY  
SOUND PRODUCT

## STARON® AND THE ENVIRONMENT

Staron is helping the environment by removing the need to select natural granites and marbles, which are being extracted wholesale from the Earth.

Staron's recycled range holds the SCS Material Content Certification which verifies that Staron is working responsibly to minimise environmental impact during its manufacturing process.

Staron's capacity to be repaired in the unlikely event of damage caused by a serious impact is also a real environmental benefit. Alternative surfacing materials that have been damaged cannot be repaired and are then often wastefully scrapped.

TEMPEST GLIMMER FG 144

## STUNNING BATHROOMS

With their non-porous quality, Staron's bowls and solid surfaces find a natural home in the bathroom. Impervious to moisture, Staron provides smooth, grout-free surfaces, which can be seamlessly integrated with the range of classically designed Staron bowl designs. Stylish, yet functional, Staron creates a stunning look that is easy to clean, hygienic and reassuringly safe for you and your family.

## COMPLETE THE LOOK

### UPSTANDS AND SPLASHBACKS

Matching upstands and splashbacks are the perfect way to protect your walls and complete a sleek seamless look within your kitchen, laundry or bathroom. They are also a more hygienic and modern alternative to the grouted joints of traditional tiles.

### EDGING PROFILE OPTIONS

Shown left are a few of the many edge profile options available for your Staron worksurface. You can even come up with your own design.

Talk to your Staron specialist for more details.

QUARRY MINETTE QM 289

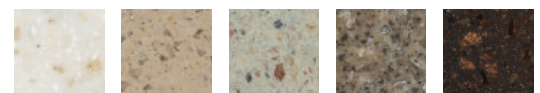

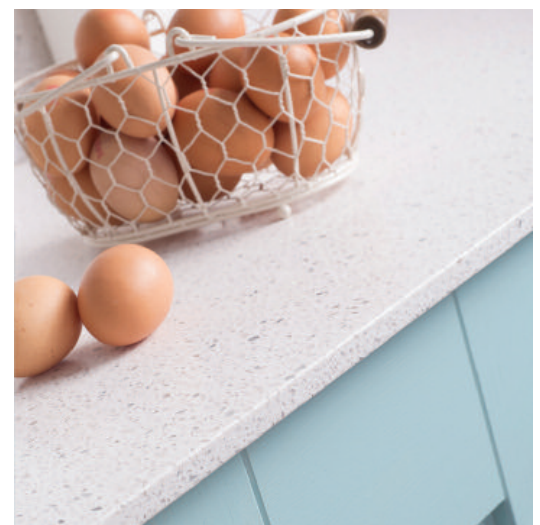

## GO THICK OR THIN!

When you choose Staron you can also choose the thickness of your worksurfaces with the help of your kitchen designer. From fashionably thin up to whatever thickness you want. You can even stylishly incorporate a mixture of thicknesses into your kitchen design. How about an ultra thick 100mm surface on the breakfast bar and ultra thin 12mm for all the other worksurfaces?

And of course with Staron, you can seamlessly have whatever length or depth of worksurface or breakfast bar you want.

- ❖ Dark colours and high gloss finishes – Staron is a durable and repairable solid surface that will last for many years with simple care. Please refer to our maintenance guidance leaflet. Dark colours and high gloss finishes will, like everything else, potentially show scratches if a worktop saver has not been used. Scratches or abrasions marks are not covered under the Staron 15 year limited warranty. However, if scratches occur over a period of time, the surface can be re-sanded and re-finished, which will remove the scratches. Refinishing your surface must be performed by an authorised Staron fabricator / installer and you will be charged at an hourly service rate.
- ❖ Contains metallic flakes that have reflective properties, which may cause the colour to look different (brightness) depending on the angle of view.

Whilst every effort has been made to accurately represent the décors within this brochure, we are unable to guarantee an exact match due to the limitations of the printing process. Please view actual sample prior to selection.

Before you install your Staron surface, please verify that batch numbers are the same to ensure a complete colour match.
